

# CORE FUNCTION

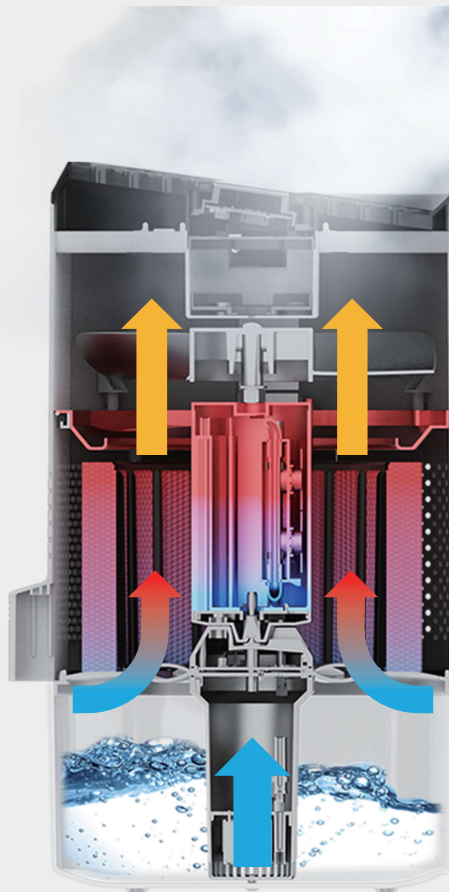

Easy to maintainence & clean

High temperature washed air + Large humidification capacity

Filter element is separated from water tank + Large tank capacity

## 100°C High-temperature Disinfectant

Clean the air with 100 °C high-temperature water

## Super energy-saving

It only consumes 0.5 degrees of electricity in 24 hours

|                      |                |
|----------------------|----------------|
| Applicable area      | 30 m²          |
| Humidifying capacity | 600 ml/H       |
| Tank volume          | 5.0L           |
| Power consumption    | 0.3 KW         |
| Noise                | 40 dB(A)       |
| Overall dimension    | 384*242*250 mm |

# H5

## Air Purifier

Enjoy the cleaner air after the high temperature

Silent technology

+

Mold-free Air Humidification

Energy saving and low consumption

+

Three years long acting filter

100°C high temperature washing purification
